1. Newly submitted claims 17-21 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: claims 17-21 are directed to a patently distinct species from claims 1-16. Currently, no claim is generic.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 17-21 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

2. Claims 13, 15 and 16 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. There is no original disclosure directed to "the floor mats are free ... frame".

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1, 2 and 12 are rejected under 35 U.S.C. 103(a) as being unpatentable over the UK patent application ('061). The reference discloses the invention substantially as claimed; see page 1, lines 81-85, 92-96 and 111-118. In the

Art Unit: 1772

reference's article, one set of strips 12, 14 may be considered upper ribs and the other set may be considered lower ribs since both set of ribs have portions at a lower and upper portion of the mat. However the reference does not disclose two mats abutting each other. It would have been obvious to one of ordinary skill in the art to place as many of the ('061) mats together as is necessary to cover the desired area to be protected for a particular end use.

5. Claim 3 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. Claims 4-11 and 14 are allowed.

7. The terminal disclaimer filed on 8/7/03 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of 6,531,203 has been reviewed and is accepted. The terminal disclaimer has been recorded.

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

Art Unit: 1772

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
